

# Why Partner with GoBolt?

As a leading last mile provider in Canada and the US, we offer a partnership that brings significant value to your company.

**Opportunity for Scalable Growth:** As GoBolt volume grows, we provide the platform and support required to seamlessly expand your operations.

**Diversify into Mid-Mile and Last Mile:** Transition from parcel last mile delivery to mid-mile and big & bulky last mile services, unlocking new revenue streams.

**Electric Vehicles:** Join us in leading the charge towards sustainable logistics by utilizing EVs, reducing carbon emissions and aligning with environmental targets.

**Innovative Technology:** GoBolt's technology can enhance your fleet's performance. From dynamic routing algorithms to real-time tracking and optimization tools.

"GoBolt has kept their promise as far as routes and growth, my team has been happy with the consistency of work."

"The GoBolt Drivers App makes it easy. We see the stops laid over a map with the stop sequence. All the information needed to successfully complete the delivery is at your fingertips."
